LAC-16 Series
LPC-2R Series
Coin Wrapping Machines

LAUREL
LAUREL BANK MACHINES CO.,LTD.

LAUREL has developed the most excellent and sophisticated Machines.

“LAUREL” is the right choice for your Coin Wrapping Machine.

LAC-16 Series

LPC-2R Series

Revision 2

The ever-popular Laurel Coin Wrapping Machines have been refined and further improved for the development of a new version. We call this "Revision 2."

Despite the high acclaim our Coin Wrapping Machines have received, we have continued to work on improving them based on field assessments and customer feedbacks. Revision 2 boasts phenomenal durability and reliability to ensure long-term customer satisfaction.

Easy Operation

The user-friendly panel gives an easy-to-see and foolproof, clear visual operational guidance.

All counting and wrapping procedures are illustrated and instructed to the operator on the Operation Panel.

Automatic Jam Reconciliation & Rejection

With the LAC-16 Series Revision 2 coin jam and error recoveries are easy. Its unique mechanism clears jams speedily and automatically and the Machine continues the job without interruption. On top of that, foreign coins, smaller/larger diameter coins, odd coins and irregular coin stacks are automatically rejected into the Clear Box/Sort Box with the number of coins rejected automatically deducted and shown on the count display.

Multi coin Processing Capabilities

LAC-16 Series Revision 2 uses a universal cam and memory card which makes it quick and simple to change coin wrapping specifications. When a new coin or token starts circulating in the market, all you have to do is simply install a new memory card from Laurel in which the necessary data of the new coin or token is registered and let the LAC-16 Series Revision 2 do the rest of the job.

LAC-16 HR Revision 2

The model LAC-16 HR Revision 2 has been developed for special customers who have working environments where the coin wrapping machines must be in non-stop operation for almost 24 hours a day. Parts prone to wearing have been greatly improved in their durability to endure and maintain the speedy processing in high volumes.

After Sales Service

A worldwide network of "LAUREL" authorized distributors assures you of high level support and after sales service.

ISO 9001

LAUREL Coin Wrapping Machines are manufactured at the factory which meets the ISO 9001 Quality Systems requirement.

EC Directives

LAUREL Coin Wrapping Machines comply with the EC Low Voltage Directive 2006/95/EC and EMC Directives 2004/108/EC.

RoHS Regulations

LAUREL Coin Wrapping Machines comply with the RoHS regulations.

Options for LAC-16 Series Revision 2

- Coin Roll Height Detection Unit
- Coin Roll Chute Gate
- Mechanical Coin Roll Counter
- RS232C Serial Interface Facilities
- LAUREL Interface Link

Model		LAC-16 Series	LPC-2R Series
Dimensions	Height	1150mm	1027mm
	Width	410mm	400mm
	Depth	600mm	550mm
Weight		Approx. 140kg	Approx. 120kg
Acceptable Coin Diameter Range		15mm ~ 38mm	15mm ~ 33mm
Acceptable Coin Thickness Range		1mm ~ 3.5mm	1mm ~ 3.5mm
Wrapping Speed		Max. 40 rolls / minute	Max. 20 rolls / minute
Counting Speed		Max. 3000 coins / minute	Max. 1500 coins / minute
Acceptable Coin/Token Specifications		Max. 16	Max. 12
Hopper Capacity		Approx. 8000 coins	Approx. 5000 coins
Power Source		100 - 125V / 200 - 240V ~	
Frequency		50 - 60Hz
